Wiring Devices | White

ECORE from MK Electric is a new line of high quality wiring devices that is engineered to be value for money while staying true to MK Electric's hallmark of unparalleled safety in terms of features. It's stylish, modern and able to compliment any interior design. Ecore inherits the following merits:

1. Unique screw cap design

- It is monobloc design that provides flexibility in installation with its unique screw cap that is attached to its front plate.
- Re-usable and retained screw caps, fixing screws are not visible.

2. Stylish and modern design

- Curved edges - slim profile, reduces ledge space prevents dust collection.
- Rounded corners.

3. Manufactured from high quality materials

- Made of durable high quality polycarbonate plastic for high impact.
- Is available in basic essential white.

4. Ease of Installation

- Clearly marked terminals.
- Slotted holes - allows for alignment where back boxes are not straight.

5. Product compliances with relevant BS/IEC standards

- Ecore the ideal choice for residential and replacement market.

It is possible to open and close the screw caps even with two or more Ecore wiring devices mounted next to each other.

Switched & Unswitched Fused Connection Unit are tested at Rated Current of 13A to BS1363

2A and 5A fused products are exactly the same 13A product with the exception of the fuse link replaced by 2A and 5A BS1362 fuse link

SCREW CAP INSTALLATION GUIDE

1 Insert the sharp tip of a 4mm screwdriver in the screw cap slot

2 Rotate the screwdriver to pop-up the screw cap

3 Swing open the screw cap to access the screw holes on the front plate

4 To restore screw cap push it back into the front plate until flush with plate surface
